PARTS MANUAL

**Model
R1200
Generator**

**PUB-GP0357
Rev. 8/98**

Robin
SUBARU

HOW TO USE THIS PARTS CATALOG

1. Reference numbers with an asterisk

Reference numbers marked with an asterisk indicate that the particular part is available only as a complete set or assembly.

Example:

If the reference number is marked with an asterisk and the description of the part states that certain items are included, this means that those included items cannot be ordered separately and must be purchased as a complete assembly.

2. Description of interchangeability and execution columns

Example: Interchangeability column

- └ o Items interchangeable between the new and old parts
- └ x Items not interchangeable between the new and old parts
- └ y Items conditionally interchangeable between the new and old parts which are subject to the description in the execution column.

Example: Execution column

- 010000
- 010001-
- For use for Serial No. up to 010000.
- Serial No.
- For use for Serial No. from 010001.

Example:

Part Number	Execution	Explanation
Part B	020000-	This indicates that A-part changed to B-part for generators with serial numbers from 20000, and that they are interchangeable.
Part A	└ o	
Part C	020000-	This indicates that A-part changed to B-part for generators with serial numbers from 20000, and that they are interchangeable.
Part B	015000-	
Part A	└ x	This indicates that A-part changed to B-part for generators with serial numbers from 15000, and that they are interchangeable. Also, B-part changed to C-part for generators with serial numbers from 20000 and that they are interchangeable.
Part A	020000-	This indicates that A-part is a new part for generators with serial numbers from 20000.
Part B	-030000	This indicates that B-part is no longer available for generators with serial numbers from 30001.
Part B	020000-	This indicates that A-part changed to B-part for generators with serial numbers from 20000, and that they are conditionally interchangeable (see NOTE described at the end of the section).
Part A	└ y
